The golden-yellow fried potato stick
has many names - in gourmet circles
(as is the case with us!) it is also
known as the Pom Fritz. Accord-
ing to their complex history, Pom
Fritz(s) are said to be of French
origin.

Is that true? I don’t know.
Anyway, they’re crispy. Our potato
sticks come, fresh, directly to your
table – exactly where they belong!

I scream for ice cream!

Already had a snack today? If not, we have a great suggestion: ice always works. That’s why our delicious creations are available all year round, not just in summer.

We do not want to accede thievery, but if someone should come up with the absurd idea of accidentally taking the card along: the parking disc does not conform to the norm. We do not accept tickets that are issued as a result of this. But if this happens and this abstruse case occurs: We would like to have a picture of it!

You can find our ice cream selection in our spectacular ice cream menu!

The secret of Schümli Coffee ...

lies in the preparation at Cafe Extrablatt!

We have one of Europe's most modern coffee machines. In contrast to the conventional filter process, the coffee produced by our coffee machine is not 100 degrees, but every cup is freshly brewed at 11 bar pressure and maximum 94 degrees and it all just takes a few seconds. Try it for yourself, you will be amazed.

Did you know the artificially caused half-life of coffee cups is just 25 days? To the right you will see a picture showing the required constant.
